STRATEGIC TECH SOLUTIONS

CONNECTING BUSINESS & TECHNOLOGY

OUR SERVICE
DATA MIGRATION

At Strategic Tech Solutions, we specialize in data migrations of all sizes, from straightforward migrations to tackling some of the toughest challenges. Whether consolidating systems, migrating from legacy platforms, or re-implementing existing systems to enhance functionality, we deliver seamless, accurate, and efficient solutions tailored to your business needs.

OUR EXPERTISE

01
Windchill to Windchill Migration
Ensure smooth transitions between Windchill systems with no data loss or integrity issues.

02
Legacy Systems to Windchill
Upgrade from outdated platforms to Windchill, modernizing your operations with minimal disruption.

03
Custom Extractors, Loaders, and Validators
Leverage our experience with bespoke tools designed to handle complex data extraction, loading, and validation processes.

04
Off-the-Shelf Migrators
Expertise in leveraging pre-built migration tools for quick and efficient transitions.

05
Data Manipulation and Cleansing
Enhance and standardize your data to ensure quality and consistency during migration.

06
Database Expertise
Proficiency in managing migrations involving Oracle, SQL Server, and other database systems.

MIGRATION WITH STS

01 **Planning and Assessment**

Define Objectives, Analyze Source Data, Design Target System, Develop Migration Strategy

02 **Data Preparation**

Data Cleanup, Data Standardization, Mapping and Transformation

03 **Tool Selection and Customization**

Select Migration Tools, Develop Scripts

04 **Migration Testing**

Dry Runs, Validate Data Integrity, Test System Functionality

05 **Bulk Migration Execution**

Data Extraction, Data Loading, Error Handling

06 **Validation and Post-Migration Activities**

Data Validation, User Acceptance Testing (UAT), Optimize Performance

07 **Go-Live and Support**

Cutover to Production, Post-Migration Support, Documentation

Custom and Off-the-Shelf Tools
Flexible approaches using the best tools for your unique needs, whether pre-built or tailored.

Minimized Downtime
Designed to ensure your business continues running smoothly during the migration process.

Proven Expertise
Decades of experience in complex data migrations, from simple upgrades to intricate consolidations.

Post-Migration Validation
Comprehensive testing and validation to ensure everything operates as intended.

WHY STS?
